WATSON DIESEL INC

OUR 4TH ANNUAL SPRING THAW OPEN HOUSE

Watson Diesel Municipals' 4th Annual "Spring Thaw Open House" was almost a celebration of spring arrival. Almost. A sunny morning turned into near white out conditions in the afternoon leaving some attendees wondering if they may have to leave early to tend to their roads! But the snow let up in time for us to host our Second Annual Municipal Truck Rodeo at our Rt 414 maintenance facility where we had a heated competition that had less than an 8 second spread between the top 3 finishers!

With Over 250 Attendees  
From 13 Counties Representing 60 Municipalities  
And 21 Vendors Displaying Their Products - There Was A Little Bit Of Something For Everyone.

Watson Diesel Municipal was excited to unveil its newest product the WD-218 F-550 Class Wing Plow along with its new F-550 Class Stainless Dump Box. We believe that these 2 new innovative products used in conjunction with the Buyers series of snow plows makes for an unbeatable combination.

So thank you to everyone that took time out to attend and thank you to all of our vendors that are truly partners in our success.

CONGRATULATIONS to all of the door prize winners along with the truck rodeo winner.
