

ISSUE 21

**WATSON DIESEL INC.**

**"POST SEASON CHECKUP"**

By the time you read this, I pray that we are back to somewhere close to normal after the Covid-19 pandemic. Even if it is over, we doubt that we will be back to our old normal for some time to come.

But we will press on. Watson Diesel Inc. has sustained its operation throughout this time, and has been able to maintain somewhat of a normal schedule. Unfortunately, we were forced to cancel our open house this spring. We really look forward to this annual event, and getting to see our customers and be able to say thank you for their business and support.

We will also be missing out on the 2020 PSATS convention in Hershey, and I am sure many other summer shows.

Because of this, we are offering a "Post Season Checkup" while you wait, at our municipal facility. Bring your municipal truck in, and one of our technicians will bring it inside and perform a multi-point inspection and lubrication, change hydraulic filter and check all fluids. All of this for a flat rate of \$75.00\*. It does not matter if it is one of our upfits or not, all trucks are eligible!

While your truck is being serviced, you can stop into our showroom, take a seat and have a hot cup of coffee and a snack, and then take a look around at some of the products Watson Diesel Municipal has to offer. Our sales staff and service staff will be on hand to answer any questions you may have on a new truck upfit or general maintenance on your existing truck, and sign up for one of our "Open House" door prizes that we still have!

So give us a call today and set up an appointment for your truck's "Post Season Checkup".

Be safe, keep that social distancing going, and we hope to see you here.

\*Price does not include filter or make up oil or other materials.
