

ISSUE 20 QUICK BUILD

Watson Diesel Municipal has always offered our customer a quality-built truck at a competitive price. Along with building a quality truck, we have always prided ourselves on providing a quick turnaround on your new truck build.

Last year, we introduced our "Rapid Response Program" where we dispatch one of our technicians to your shop, instead of you bringing your truck to us when you have an emergency breakdown.

We have now raised the bar even higher by offering our

"Dedicated Quick Build Bay"

We have put this program in place to expedite your truck build in the event of you having an unfortunate event come up that would necessitate a truck build right away.

We have the staff in place and product on the shelf to build your truck *within weeks, not months!* Couple this with our innovative WD-218 Wing Plow, built right here in our Canton facility, and you will see the difference we can make in your operation.

Watson Diesel Municipal is constantly looking for new ways to serve our municipal customers' unique needs and make your job easier.

So if the need arises, call us first and we will do what it takes to get you back on the road with the least amount of stress and worry.

WATSON DIESEL MUNICIPAL
Changing The Way Municipal Business Is Done ... One Truck At A Time.
